# HANVO 5G FACTORY

HANVO 5G Factory is one of the leading smart factories in the safety industry. Based on 5G technology, internet of things and digitalization, we have established a revolutionary “dark factory” for unmanned manufacturing through automatic production, management, machine processing, packaging, and storage & transportation.

## THE POWER OF SMART

Total site area  
103,000 m<sup>2</sup>

5G network Intelligence  
Equipment manufacture

Fewer staffs  
66% Less

Annual capacity  
70,000,000 dozens

## OUR ADVANTAGES

**7-DAYS**  
EFFICIENT DELIVERY

**COMPETITIVE**  
ECONOMICAL COST

**CONSISTENT**  
EXCEPTIONAL QUALITY

# HANVO VIETNAM PLANT

The HANVO Vietnam Plant is a key player in the global supply chain, connecting with customers and suppliers worldwide. We constantly adapting to the dynamics of the market and the changing needs of our customers in order to ensure our responsiveness and agility. As a global supplier of safety products, we're a trusted partner for businesses.

## ABOUT VIETNAM PLANT

Total site area  
120,000 m<sup>2</sup>

Starting from  
April, 2023

Ready by  
Dec, 2024

Annual capacity  
16,000,000 dozens

Available varieties  
PU, latex, nitrile

Address  
Hai Ha District, Quang  
Ninh Province, Vietnam

## Accugrip™

Hanvo Accugrip technology is an innovative coating designed to offer superior grip and durability in various workplaces, especially in oily conditions. With lots of tiny suction cup-like holes on its surface, it firmly grasps materials, reducing strain on hands when gripping tools. Furthermore, Accugrip coating enhances glove durability, ensuring exceptional long-lasting performance while providing good comfort.

### UNMATCHED GRIP

Minimum force to pull down the testing iron bar/N

The data is based on the minimum force used to pull the iron bar downward. The smaller the value, the better the grip. Tested according to SATRA test standard STM620-032063

### UNPARALLELED COMFORT

Experience a whole new level of comfort with Accugrip. Our gloves provide a softer, more lightweight, and comfortable feel on your hands, even during long hours of use, it can keep your hands always dry.

### UNBEATABLE DURABILITY

Accugrip's gloves coating didn't break until 52,000 cycles in EN388 abrasion testing at SGS.

## NJV5006

- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
Texture: Accugrip™  
Area: Palm  
Size range: 7-12  
Gauge: 15  
Material: Nylon/Spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing

## NJV8006

- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
Texture: Accugrip™  
Area: Palm  
Size range: 7-12  
Gauge: 18  
Material: Nylon/Spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing

## NJV8254

- 18gg MetalQ® liner is light and provides great cut protection up to level C.
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
 Texture: Accugrip™  
 Area: Palm  
 Size range: 7-12  
 Gauge: 18  
 Material: MetalQ®

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## NJV4253

- 21gg MetalQ® liner is light and provides great cut protection up to level C.
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
 Texture: Accugrip™  
 Area: Palm  
 Size range: 7-12  
 Gauge: 21  
 Material: MetalQ®

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## NJV8256

- 18gg MetalQ® liner is light and provides great cut protection up to level D.
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
 Texture: Accugrip™  
 Area: Palm  
 Size range: 7-12  
 Gauge: 18  
 Material: MetalQ®

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## NJV4255

- 21gg MetalQ® liner is light and provides great cut protection up to level D.
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
 Texture: Accugrip™  
 Area: Palm  
 Size range: 7-12  
 Gauge: 21  
 Material: MetalQ®

### APPLICATIONS

- Automotive
- Transportation & warehousing
- Assembly
- Facility Maintenance
- Machinery & Equipment
- Glass handling operations

## NJV8257

- 18gg MetalQ® liner is light and provides great cut protection up to level E
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
Texture: Accugrip™  
Area: Palm  
Size range: 7-12  
Gauge: 18  
Material: MetalQ®

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## NJV3258

- 13gg MetalQ® liner is light and provides great cut protection up to level F.
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
Texture: Accugrip™  
Area: Palm  
Size range: 7-12  
Gauge: 13  
Material: MetalQ®

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## NLX8000

- Accugrip™ NLX8000 industrial gloves feature the innovative Accugrip™ coating, providing exceptional grip for handling oily or wet materials with ease.
- Equipped with an 18gg seamless knitting liner, NLX8000 offers heightened comfort, making them suitable for a variety of applications.
- The dual coating prevents liquid and chemical leakage, ensuring advanced protection during handling.
- Meeting ANSI/EN standards for abrasion resistance, NLX8000 offers increased durability and long-lasting performance.
- With outstanding chemical resistance and compliance with EN 407 contact heat level 1, NLX8000 provides specialized protection against workplace hazards.

### DESCRIPTION

Material: Nitrile  
Texture: Accugrip™  
Area: Full  
Size range: 7-12  
Gauge: 18  
Material: Nylon/Spandex

### APPLICATIONS

- Automotive
- Metal Processing
- Food Processing Services
- Chemical
- Oil & Gas
- Mechanical Equipment

## NLX8256

- Accugrip™ NLX8256 industrial gloves feature the innovative Accugrip™ coating, ensuring superior grip for effortless handling of oily or wet materials.
- Equipped with an 18gg seamless knitting liner, NLX8256 offers elevated comfort, making them suitable for a variety of applications.
- The full dual coating effectively prevents liquid and chemical leakage, guaranteeing advanced protection during material handling.
- Compliant with ANSI/EN standards for abrasion resistance, NLX8256 gloves offer increased durability and long-lasting performance.
- Offering outstanding chemical resistance and meeting EN 407 contact heat level 1 standards, NLX8256 gloves provide specialized protection against workplace hazards.
- Featuring an 18gg MetalQ® liner, these gloves are lightweight and offer excellent cut protection up to level D.

### DESCRIPTION

Material: Nitrile  
Texture: Accugrip™  
Area: Full  
Size range: 7-12  
Gauge: 18  
Material: MetalQ®

### APPLICATIONS

- Automotive
- Metal Processing
- Food Processing Services
- Chemical
- Oil & Gas
- Mechanical Equipment

## NLX8256W

- Accugrip™ NLX8256W industrial gloves feature the innovative Accugrip™ coating, ensuring superior grip for effortless handling of oily or wet materials.
- Equipped with an 18gg seamless knitting liner, NLX8256W offers elevated comfort, making them suitable for various applications.
- The full dual coating effectively prevents liquid and chemical leakage, guaranteeing advanced protection during material handling.
- Compliant with ANSI/EN standards for abrasion resistance, NLX8256W gloves offer increased durability and long-lasting performance.
- Offering outstanding chemical resistance and compliance with EN 407 contact heat level 1 standards, NLX8256W gloves provide specialized protection against workplace hazards.
- Featuring an 18gg MetalQ® liner, these gloves are lightweight and provide excellent cut protection up to level D.
- With a soft and durable TPR (Thermoplastic Rubber) heat-pressed on the back, these gloves effectively shield hands from impacts.

### DESCRIPTION

Material:	Nitrile	Size range:	7-12
Texture:	Accugrip™	Gauge:	18
Area:	Full	Material:	MetalQ®

### APPLICATIONS

- Automotive
- Metal Processing
- Food Processing Services
- Chemical
- Oil & Gas
- Mechanical Equipment

## NLJ8000

- Chemguard NLJ8000 industrial gloves feature the innovative Chemguard coating, providing superior grip for handling oily or wet materials with reduced effort.
- Equipped with an 18gg seamless knitting liner, NLJ8000 offers enhanced comfort, making them suitable for various applications.
- Full dual coating prevents liquid and chemical leakage, ensuring advanced protection during handling.
- Meeting ANSI/EN standards for abrasion resistance, NLJ8000 offer increased durability and long-lasting performance.
- With outstanding chemical resistance and compliance with EN 407 contact heat level 1, NLJ8000 provide specialized protection against workplace hazards.

### DESCRIPTION

Material:	Nitrile	Size range:	7-12
Texture:	Chemguard	Gauge:	18
Area:	Full	Material:	Nylon/Spandex

### APPLICATIONS

- Automotive
- Metal Processing
- Food Processing Services
- Chemical
- Oil & Gas
- Mechanical Equipment

## NLJ8354

- Chemguard NLJ8354 industrial gloves feature the innovative Chemguard coating, providing superior grip for handling oily or wet materials with reduced effort.
- Equipped with an 18gg seamless knitting liner, NLJ8354 offers enhanced comfort, making them suitable for various applications.
- Full dual coating prevents liquid and chemical leakage, ensuring advanced protection during handling.
- Meeting ANSI/EN standards for abrasion resistance, NLJ8354 offer increased durability and long-lasting performance.
- With outstanding chemical resistance and compliance with EN 407 contact heat level 1, NLJ8354 provide specialized protection against workplace hazards.
- 18gg MetalQ® liner is light and provides great cut protection up to level C.

### DESCRIPTION

Material:	Nitrile	Size range:	7-12
Texture:	Chemguard	Gauge:	18
Area:	Full	Material:	MetalQ®

### APPLICATIONS

- Automotive
- Metal Processing
- Food Processing Services
- Chemical
- Oil & Gas
- Mechanical Equipment

## NLJ8354W

- Chemguard NLJ8354W industrial gloves feature the innovative Chemguard coating, providing superior grip for handling oily or wet materials with reduced effort.
- Equipped with an 18gg seamless knitting liner, NLJ8354W offers enhanced comfort, making them suitable for various applications.
- Full dual coating prevents liquid and chemical leakage, ensuring advanced protection during handling.
- Meeting ANSI/EN standards for abrasion resistance, NLJ8354W offer increased durability and long-lasting performance.
- With outstanding chemical resistance and compliance with EN 407 contact heat level 1, NLJ8354W provide specialized protection against workplace hazards.
- 18gg MetalQ® liner is light and provides great cut protection up to level C.
- With a soft and durable TPR heat pressed on the back, can effectively protect hands from impact.

### DESCRIPTION

Material:	Nitrile	Size range:	7-12
Texture:	Chemguard	Gauge:	18
Area:	Full	Material:	MetalQ®

### APPLICATIONS

- Automotive
- Metal Processing
- Food Processing Services
- Chemical
- Oil & Gas
- Mechanical Equipment

# ECOTECH

ECOTECH is a range of products aligned with sustainable development principles, designed to make a positive impact on the environment. This series features advanced solutions such as bio-based yarn, recycled yarn, and biodegradable yarn, contributing to a more sustainable future. To further reinforce our commitment to sustainability, we combine these eco-friendly yarns with our diverse coating technologies, creating innovative and environmentally conscious products. With the ECOTECH Series, we aim to empower industries to embrace sustainable practices while delivering exceptional performance and functionality.

## PES3447

- Excellent soft and comfortable hand feeling.
- Made from Recycled polyester, which is from plastic bottles.
- Good grip in both dry and light oil condition.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: PU  
Texture: Smooth  
Area: Palm  
Size range: 7-12  
Gauge: 13  
Material: RPET/spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing

## NJE3447

- Excellent soft and comfortable hand feeling
- Made from Recycled polyester, which is from plastic bottles.
- Good grip in both dry and oil condition
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
Texture: Micro Touch®  
Area: Palm  
Size range: 7-12  
Gauge: 13  
Material: RPET/spandex

### APPLICATIONS

- Automotive
- Transportation & warehousing
- Assembly
- Facility Maintenance
- Machinery & Equipment

## LJF5445

- Excellent soft and comfortable hand feeling.
- The liner is made of recycled polyester and Biobased Bamboo fiber
- Good grip in dry conditions
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Latex  
Texture: Foam  
Area: Palm  
Size range: 7-12  
Gauge: 15  
Material: RPET/Bamboo

### APPLICATIONS

- Gardening
- General Maintenance
- DIY
- Painting
- Housekeeping

## CJE5822

- Excellent soft and comfortable hand feeling.
- Made from biodegradable polyester.
- Good grip in both dry and light oil condition.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Biodegradable nitrile  
Texture: Foam  
Area: Palm  
Size range: 7-12  
Gauge: 15  
Material: Biodegradable polyester/biodegradable spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing

## NKD5280D

- Water and oil resistant
- The Liner is 100% made of Recycled polyester.
- Good grip in both dry and oil condition
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
Texture: Micro Touch®  
Area: Full  
Size range: 7-12  
Gauge: 15  
Material: Recycled polyester

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing

## CJC8822

- Excellent soft and comfortable hand feeling.
- Made from biodegradable polyester.
- Good grip in both dry and light oil condition.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Biodegradable nitrile  
Texture: Sandy  
Area: Palm  
Size range: 7-12  
Gauge: 18  
Material: Biodegradable polyester/biodegradable spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing

## PES3451

- The liner is made of Biobased HPPE with recycled polyester.
- Softer and more comfortable fitting.
- Ergonomic hand-shaped design.
- Good cut protection up to level C.

### DESCRIPTION

Material:	PU
Texture:	Smooth
Area:	Palm
Size range:	7-12
Gauge:	13
Material:	RPET, Biobased HPPE, Spandex, glass-fiber

### APPLICATIONS

- |                       |                              |
|-----------------------|------------------------------|
| Automotive            | Facility maintenance         |
| Machinery & Equipment | Transportation & Warehousing |
| Assembly              | Glass handling operations    |

## NJJ5282D

- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material:	Nitrile
Texture:	Hanfeel®
Area:	Palm
Size range:	7-12
Gauge:	15
Material:	RPET, spandex

### APPLICATIONS

- |                       |                              |
|-----------------------|------------------------------|
| Automotive            | Facility maintenance         |
| Machinery & Equipment | Transportation & Warehousing |
| Assembly              |                              |

## NJC8269DQ

- 18gg MetalQ® liner is light and provides great cut protection up to level D
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material:	Nitrile
Texture:	Sandy
Area:	Palm
Size range:	7-12
Gauge:	18
Material:	RPET, MetalQ®, Spandex

### APPLICATIONS

- |                       |                              |
|-----------------------|------------------------------|
| Automotive            | Facility maintenance         |
| Machinery & Equipment | Transportation & Warehousing |
| Assembly              | Glass handling operations    |

# 3 MetalQ®

MetalQ® is the most advanced super-high-performance polyethylene (HPPE) yarn technology. Compared to traditional HPPE, MetalQ® offers a revolutionary combination of lightweight, thinness, and unparalleled strength, setting a new standard for protective gear. With MetalQ®, you can expect superior comfort and durability, making it the ideal choice for hand gloves and other protective products. Upgrade to MetalQ® today and embrace the future of safety and performance. Trust MetalQ® for a new generation of protection like never before.

## NJJ4377DQ

- 21 gg MetalQ® liner is ultimate light and provides great cut protection up to level E
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material:	Nitrile
Texture:	Hanfeel®
Area:	Palm
Size range:	7-12
Gauge:	21
Material:	Polyester/MetalQ®/Tungsten/spandex

### APPLICATIONS

- |                       |                              |
|-----------------------|------------------------------|
| Automotive            | Facility maintenance         |
| Machinery & Equipment | Transportation & Warehousing |
| Assembly              | Glass handling operations    |

## PES4377DQ

- 21 gg MetalQ® liner is ultimate light and provides great cut protection up to level E
- PU coating provides good grip in dry light oily condition.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material:	PU
Texture:	Smooth
Area:	Palm
Size range:	7-12
Gauge:	21
Material:	Polyester/MetalQ®/Tungsten/spandex

### APPLICATIONS

- |                       |                              |
|-----------------------|------------------------------|
| Automotive            | Facility maintenance         |
| Machinery & Equipment | Transportation & Warehousing |
| Assembly              | Glass handling operations    |

## NJE8410DQ

- 18gg MetalQ® liner is ultimate light and provides super great cut protection up to level F, ANSI cut A6.
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
 Texture: Hanfeel®  
 Area: Palm  
 Size range: 7-12  
 Gauge: 18  
 Material: Polyester/MetalQ®/Steel/spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## NJE4273DQ

- 21gg MetalQ® liner is ultimate light and provides super great cut protection up to level F, ANSI cut A6.
- Excellent grip performance, especially in oily environments.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
 Texture: Hanfeel®  
 Area: Palm  
 Size range: 7-12  
 Gauge: 21  
 Material: Polyester/MetalQ®/Tungsten/spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## NJC8410DQ

- 18gg MetalQ® liner is ultimate light and provides super great cut protection up to level F, ANSI cut A6.
- PU coating provides good grip in dry light oily condition.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: Nitrile  
 Texture: Supergrip®  
 Area: Palm  
 Size range: 7-12  
 Gauge: 18  
 Material: Polyester/MetalQ®/Steel/spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## PES4273DQ

- 21gg MetalQ® liner is ultimate light and provides super great cut protection up to level F, ANSI cut A6.
- PU coating provides good grip in dry light oily condition.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material: PU  
 Texture: Smooth  
 Area: Palm  
 Size range: 7-12  
 Gauge: 21  
 Material: Polyester/MetalQ®/Tungsten/spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## NJE8450DQ

- 18gg MetalQ® liner is ultimate light and provides super great cut protection up to level F, ANSI cut A8.
- PU coating provides good grip in dry light oily condition.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material:	Nitrile
Texture:	Foam
Area:	Palm
Size range:	7-12
Gauge:	18
Material:	Polyester/MetalQ®/Tungsten/spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## HZZ8256

- 18gg MetalQ® knitting is ultimate light and provides super great cut protection up to level D, ANSI cut A4.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic Arm-shaped design.

### DESCRIPTION

Length:	45cm
Gauge:	18gg
Colour:	Black
Material:	MetalQ®
Thumbslot:	Yes

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## PES8450DQ

- 18gg MetalQ® liner is ultimate light and provides super great cut protection up to level F, ANSI cut A8.
- PU coating provides good grip in dry light oily condition.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Material:	PU
Texture:	Smooth
Area:	Palm
Size range:	7-12
Gauge:	18
Material:	Polyester/MetalQ®/Tungsten/spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## HZZ8410

- 18gg MetalQ® liner is ultimate light and provides super great cut protection up to level D, ANSI cut A6.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Length:	45cm
Gauge:	18gg
Colour:	Navy Blue
Material:	MetalQ®/Steel
Thumbslot:	Yes

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## HZZ8450

- 18gg MetalQ® Knitting is ultimate light and provides super great cut protection up to level F, ANSI cut A8.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic Arm-shaped design.

### DESCRIPTION

Length:	45cm
Gauge:	18gg
Colour:	Hi Viz Yellow
Material:	MetalQ®/Tungsten
Thumbslot:	Yes

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## HZZ3096

- 13gg MetalQ® liner is ultimate light and provides super great cut protection up to level D, ANSI cut A9.
- Softer and more comfortable fitting.
- Improved durability.
- Ergonomic hand-shaped design.

### DESCRIPTION

Length:	45cm
Gauge:	13gg
Colour:	Royal Blue
Material:	MetalQ®/Tungsten
Thumbslot:	Yes

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

## Mechanical Utility Work Gloves

HANVO Mechanic Work Gloves Series is built mainly with synthetic leather and stretch spandex. This series is separated into light, medium and heavy duty one, focusing on different working areas, such as logistics, camping, assembly, warehousing, gardening, construction, aiming at providing you the best hands protection in abrasion resistance, vibration resistance and impact release.

1010

### Synthetic leather series

EXCELLENT ANTI-SLIP : Synthetic leather palm with full silicone printing offers excellent grip and long- lasting durability.

LIGHTWEIGHT & DEXTEROUS : Stretch spandex back and bird's eye fabric for dexterity & breathability.

ABRASION RESISTANT : Synthetic leather palm for abrasion reaching EN388 level 2 under 1600 circles.

#### MATERIAL

Synthetic leather  
Stretch spandex  
bird's eye fabric

#### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- DIY projects
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction

1011

### Synthetic leather series

BREATHABLE & DEXTEROUS : Stretch spandex back for breathability, elastic & embossed neoprene for dexterity making your hands easy to bend.

ABRASION RESISTANT : Synthetic leather palm for abrasion reaching EN388 level 2 under 1600 circles.

REINFORCED VIBRATION ABSORBING : 5MM memory foam with PVC reinforcement for vibration release.

#### MATERIAL

Synthetic leather  
Stretch spandex  
Neoprene

#### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- DIY projects
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction

1012

### Synthetic leather series

IMPACT PROTECTION : 6MM Thermoplastic Rubber (TPR) for Impact Protection.

ABRASION RESISTANT : Synthetic leather palm(1600 circles level 2) with durable PVC reinforcement(5000 circles level 3) for abrasion resistant.

REINFORCED VIBRATION ABSORBING: 3MM neoprene padding with PVC reinforcement for vibration resistance.

#### MATERIAL

Synthetic leather  
Stretch spandex  
Thermoplastic rubber

#### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction

### Oil & Gas Resistant and Water Repellent Series

LIGHTWEIGHT & DEXTEROUS: Stretch spandex back and bird's eye fabric for dexterity & breathability.

OIL & GAS RESISTANT: Protecting your hands from Oil and gas. WATER REPELLENCY: Water repellency synthetic leather keep your hands dry from water.

ABRASION RESISTANT: Oil & gas resistant and water repellency synthetic leather for abrasion reaching EN388 level 2 under 1200 circles.

#### MATERIAL

Functional synthetic leather  
Bird-eye fabric

#### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- DIY projects
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction
- Oil & Gas

## 1014 Oil & Gas Resistant and Water Repellent Series

**OIL & GAS RESISTANT:** Protecting your hands from Oil and gas.  
**WATER REPELLENCY:** Water repellency synthetic leather keep your hands dry from water.  
**ABRASION RESISTANCE:** Oil & gas resistant and water repellency synthetic leather with PU reinforcement for abrasion reaching EN388 level 2 under 1200 circles.  
**REINFORCED VIBRATION ABSORBING:** 5MM memory foam with PU reinforcement for vibration release

### MATERIAL

Synthetic leather      Stretch spandex  
 Neoprene

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- DIY projects
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction
- Oil & Gas

## 1008 Oil & Gas Resistant and Water Repellent Series

**IMPACT PROTECTION:** 6MM Thermoplastic Rubber (TPR) for Impact Protection.  
**ABRASION RESISTANT:** Synthetic leather palm(1200 circles level 2) with durable PVC reinforcement(5000 circles level 3) for abrasion resistant.  
**REINFORCED VIBRATION ABSORBING:** 3MM neoprene padding with PVC reinforcement for vibration resistance.

### MATERIAL

Synthetic leather      Stretch spandex  
 Thermoplastic rubber

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction

## 5001 Hi-vis & visible series

**ABRASION RESISTANT:** Synthetic leather palm(1600 circles level 2) with durable PVC reinforcement(5000 circles level 3) for abrasion resistant.  
**HI-VIS COLOR:** Hi-vis color back of hand increased safety in a range of professions and circumstances.  
**REFLECTIVE FUNCTION:** Reflective fingertips & logo on back for safety warning in dark environment.

### MATERIAL

Synthetic leather  
 Stretch spandex

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Mining
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction

## 0804 Hi-vis & visible series

**IMPACT PROTECTION:** 5MM Thermoplastic Rubber (TPR) for absorbing impact with extra efficiency.  
**REFLECTIVE WARNING:** Hi-vis color TPR with reflective function for safety warning in dark environment  
**ABRASION RESISTANT:** Synthetic leather palm(1600 circles level 2) with double layer synthetic leather reinforcement for durability.

### MATERIAL

Synthetic leather      Stretch spandex  
 Reflective thermoplastic rubber

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Mining
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction

## 0803 Hi -vis & visible series

ABRASION RESISTANT : Synthetic leather palm(1 600 circles level 2) with durable PVC reinforcement(5000 circles level 3) for abrasion resistant.

HI-vis COLOR : Hi-vis color back of hand increased safety in a range of professions and circumstances.

REFLECTIVE FUNCTION : Reflective fingertips & logo on back for safety warning in dark environment.

### MATERIAL

Goat leather MetalQ® liner

Glow in dark thermoplastic rubber

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Mining
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction

## 0614 All in one 3D knit construction Series

FLEXIBILITY & SOFTNESS: Lightweight suede fabric palm for dexterity.

BREATHABILITY: Super stretchy yarns with 3D knit construction technology fits your hands well and lightweight and fit design makes any job easier and safer.

EXCELLENT ANTI-SLIP : Full silicone printing offers excellent grip and long- lasting durability.

### MATERIAL

3D knit stretchy yarns

Lightweight suede fabric

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- DIY projects
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction

## 0811 All in one 3D knit construction Series

FLEXIBILITY & SOFTNESS: Lightweight suede fabric palm for dexterity.

BREATHABILITY: Super stretchy yarns with 3D knit construction technology fits your hands well and lightweight and fit design makes any job easier and safer.

REINFORCED FINGERTIPS : Dual-layer reinforcement at the fingertips for extra protection.

EXCELLENT ANTI-SLIP : Full silicone printing offers excellent grip and long- lasting durability.

### MATERIAL

3D knit stretchy yarns

Lightweight suede fabric

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- DIY projects
- Facility maintenance
- Transportation & Warehousing
- Logistics & Construction

## 0709 METALQ®

CUT RESISTANT: Lightweight MetalQ® yarns reaches CE level E & ANSI A5 cut-resistance protection.

ABRASION RESISTANT : Goat leather palm(1 200 circles level 2) for durability.

FLEXIBILITY & SOFTNESS: Super stretchy yarns and goat leather provides best breathability and dexterity.

### MATERIAL

Goat leather

MetalQ® fabric

### APPLICATIONS

- Automotive
- Machinery & Equipment
- Assembly
- Steelworks
- Facility maintenance
- Transportation & Warehousing
- Glass handling operations

**0809**      **Genuine Grain Cowhide Series**

IMPACT PROTECTION: 5MM Thermoplastic Rubber (TPR) for absorbing impact with extra efficiency.

360° CUT RESISTANT: Lightweight MetalQ® liner reaches CE level E & ANSI A5 cut resistance protection.

ABRASION RESISTANT: Cow leather palm(1200 circles level 2) with double layer synthetic leather reinforcement for durability.

EXCELLENT ANTI-SLIP : Synthetic leather palm reinforcement with full silicone printing offers excellent grip.

**MATERIAL**

Cow leather

MetalQ® liner

**APPLICATIONS**

- |                       |                              |
|-----------------------|------------------------------|
| Automotive            | Facility maintenance         |
| Machinery & Equipment | Transportation & Warehousing |
| Assembly              | Glass handling operations    |
| Steelworks            | Logistics & Construction     |

**0818**      **Extreme Fit PU Series**

EXTREME FIT: Lightweight PU offers superior comfort and flexibility.

ANTI-SLIP : PU material provides excellent anti-slip function.

HOOK & LOOP CLOSURE : Elastic band cuff with hook & loop closure ensures the perfect fit for safety and comfort throughout the day.

**MATERIAL**

PU

Stretch fabric

**APPLICATIONS**

- |                       |                      |
|-----------------------|----------------------|
| Automotive            | Facility maintenance |
| Machinery & Equipment | Assembly             |
| DIY projects          |                      |
