

NLJ8354

Product Brief

NLJ8354 is our Cut level C and chemical resistance glove for corrosive and cutting hazards. The embedded nitrile Super Grip® technology includes double dipping and sandy surface, which gives extra friction during oily material handling and keeps the handclean. Super light weight 18 gauge innovative in-house METALQ® yarn knitted liner offers great dexterity and cut level C protection at the same time. Fully-coverage coating offers full protection.

Texture Smooth nitrile,micro
 foam nitrile
Area Fully coverage coated

Liner

Size range 7-12
Gauge 18
Colour Blue
Material METALQ/Nylon

Key Features

- 18G cut-resistant liner provides cut resistance and increase hand protection.
- Micro foam nitrile coating on palm provides a superior grip in oily and wet environments.
- Good abrasion resistance and water-proof.
- Fully nitrile coating provides more chemical protection.

Applications

- Abrasion Resistant
- Cut resistant
- Oil repellent
- waterproff
- chemical resistant

Industries

- Automotive
 - Transportation&Warehousing
 - Machinery&Equipment
 - Facility maintenance
- Glass&Building materials
 - Marine
 - Oil&Chemical

Performance Standards

EN388:2016	4X42C
ANSI CUT	A3
